with SAP ERP for better
alignment with operations team
and smarter award decisions

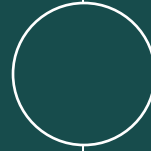

Introduction

BeNeering Sourcing
Engine

Direct Sourcing

Functional Coverage & Roadmap

BeNeering Direct Sourcing

BeNeering Direct Sourcing covers processes from displaying, bundling and adjustment of SAP ERP orders through direct sourcing to contract creation.

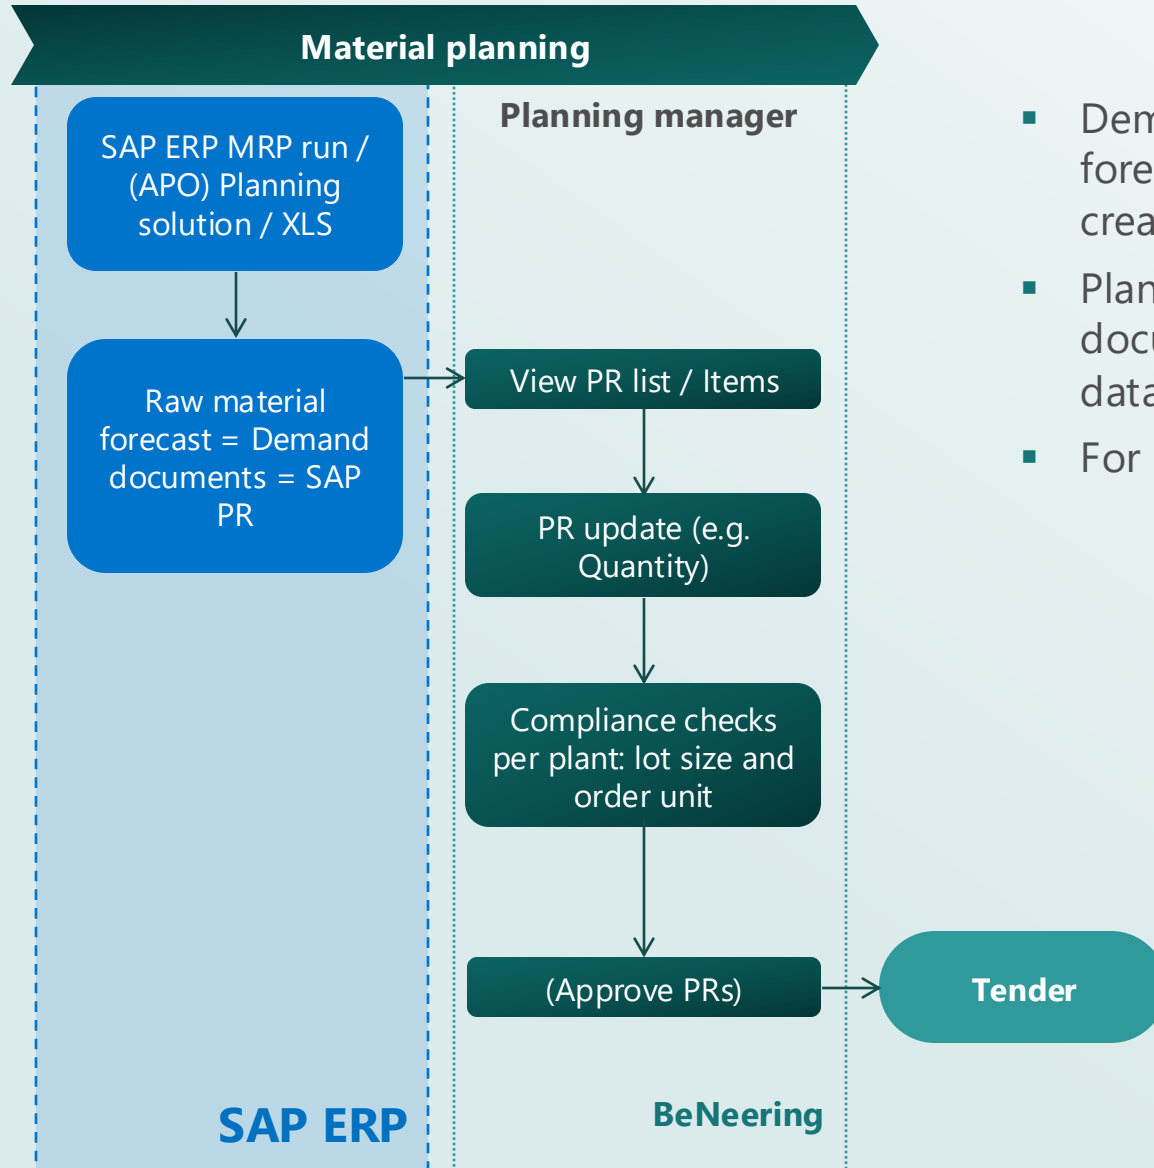

BeNeering Direct Sourcing

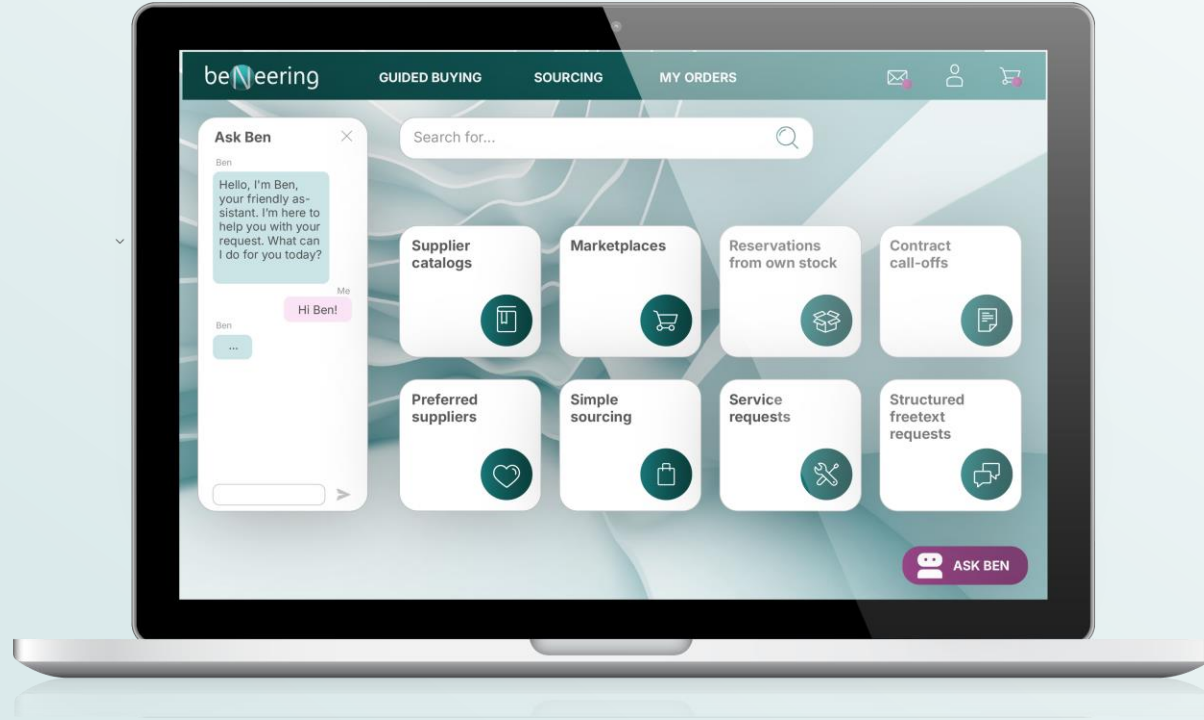

Direct Sourcing Process

- Demand documents represent the raw material forecast, generated as a result of SAP ERP MRP or created manually
- Planning manager operates with real time demand documents that are displayed from SAP ERP = no data replication is required
- For PR updates direct quantity change is possible

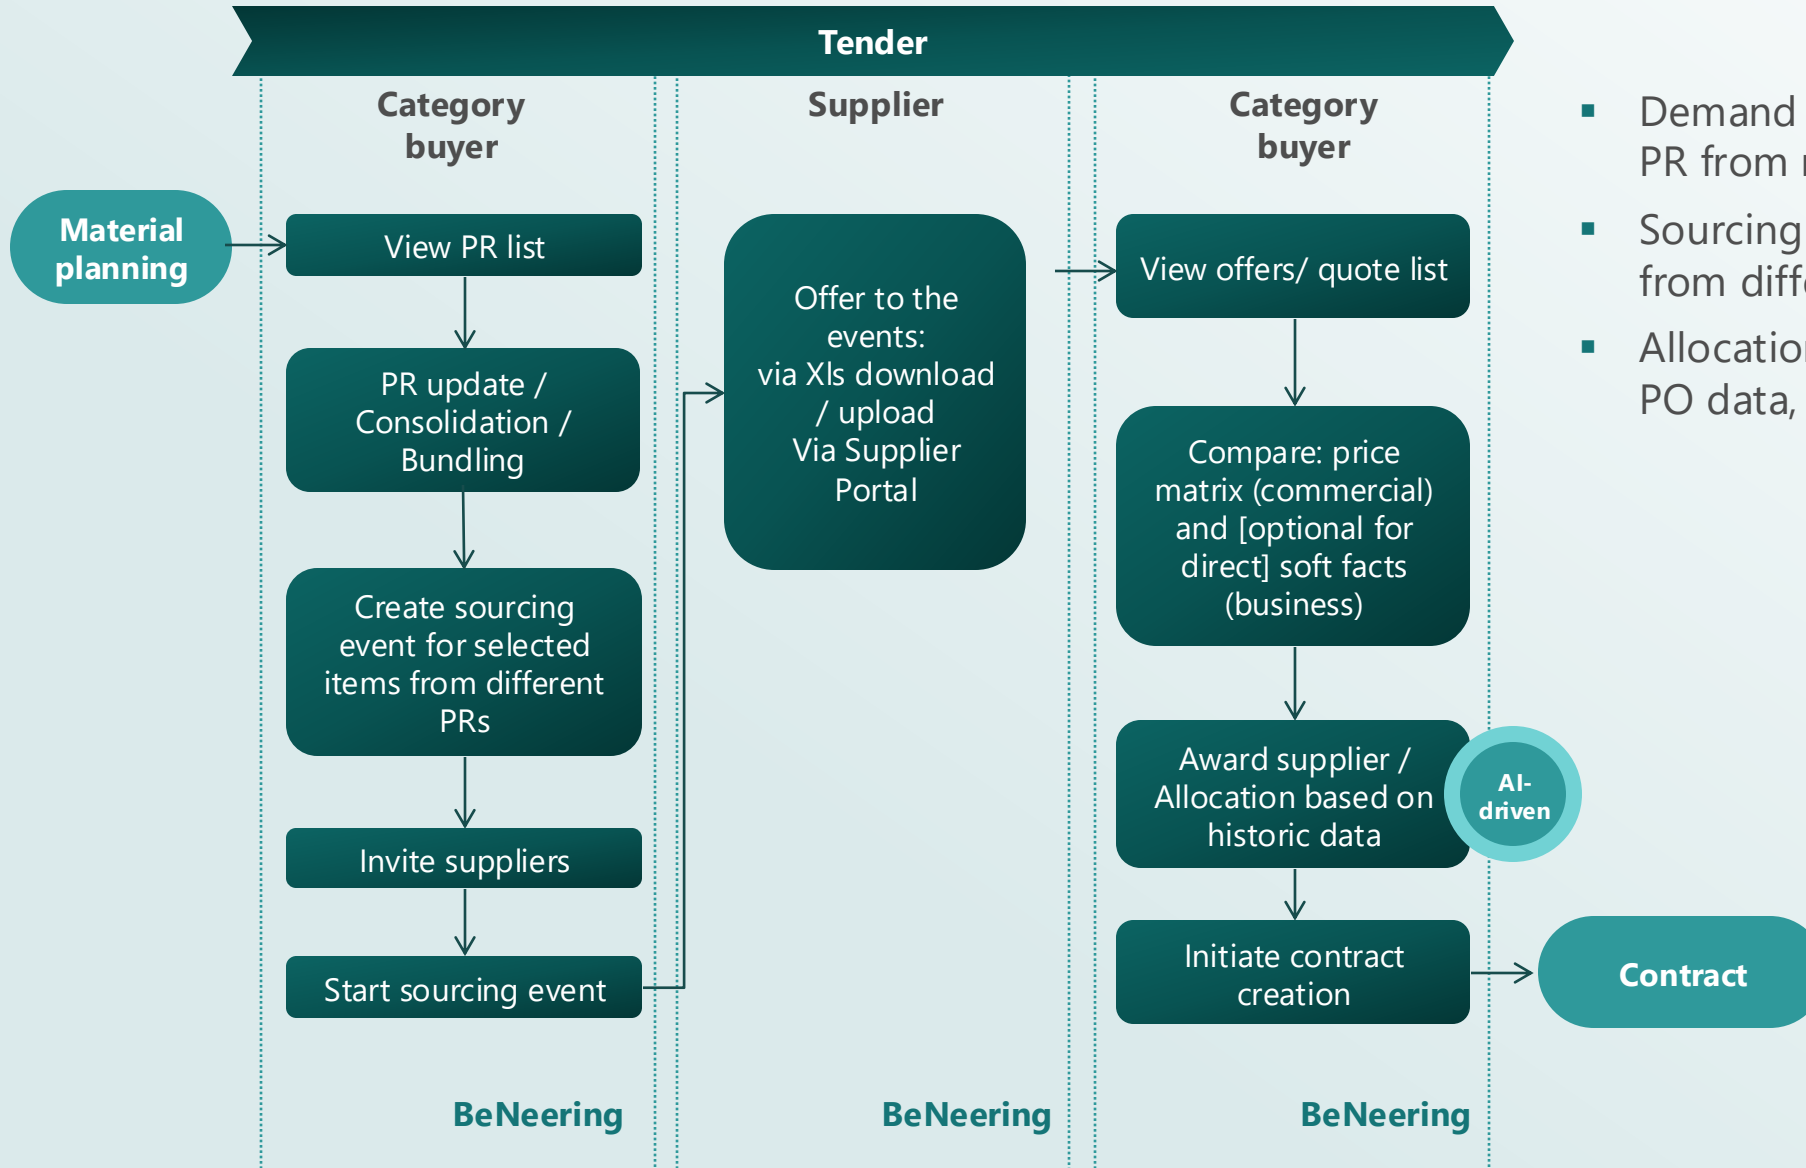

DEMO

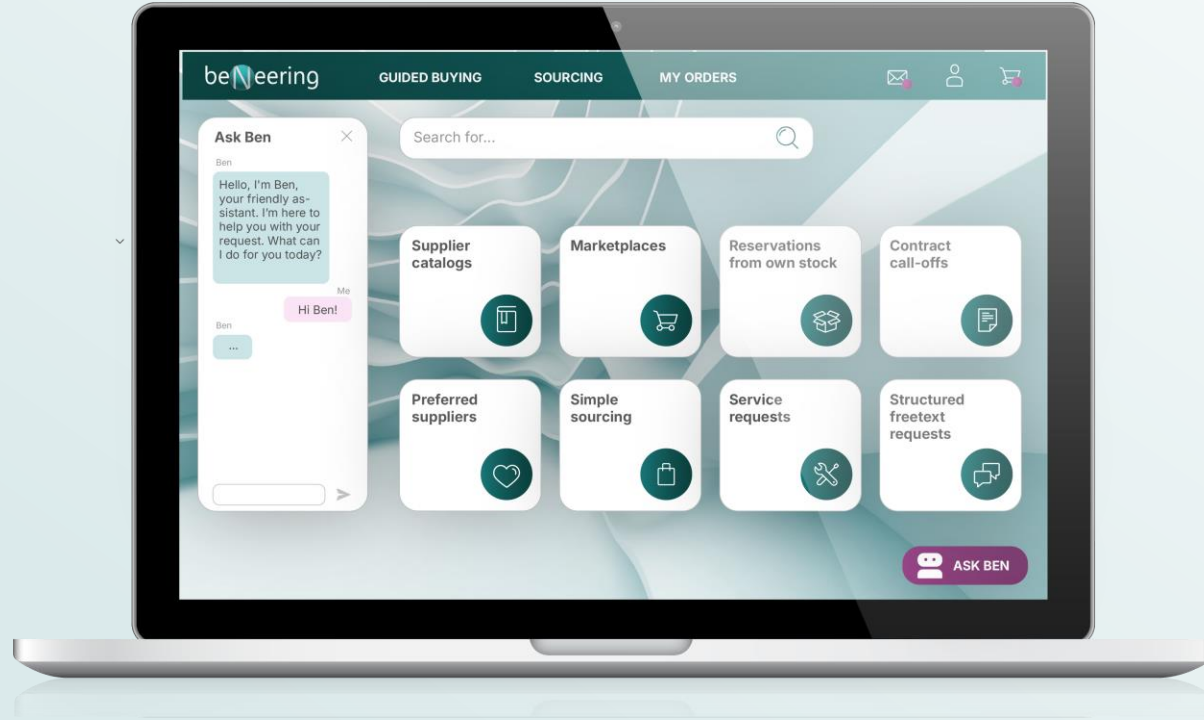

Direct Sourcing Process

- Demand bundling and consolidation for PR from multiple plants
- Sourcing event can be created for items from different PRs
- Allocation decision enriched with historic PO data, e.g., historic price

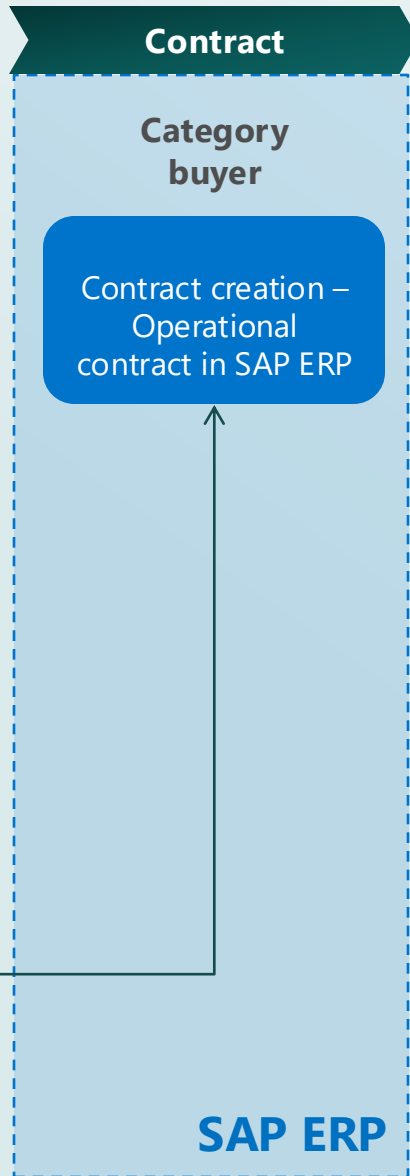

DEMO

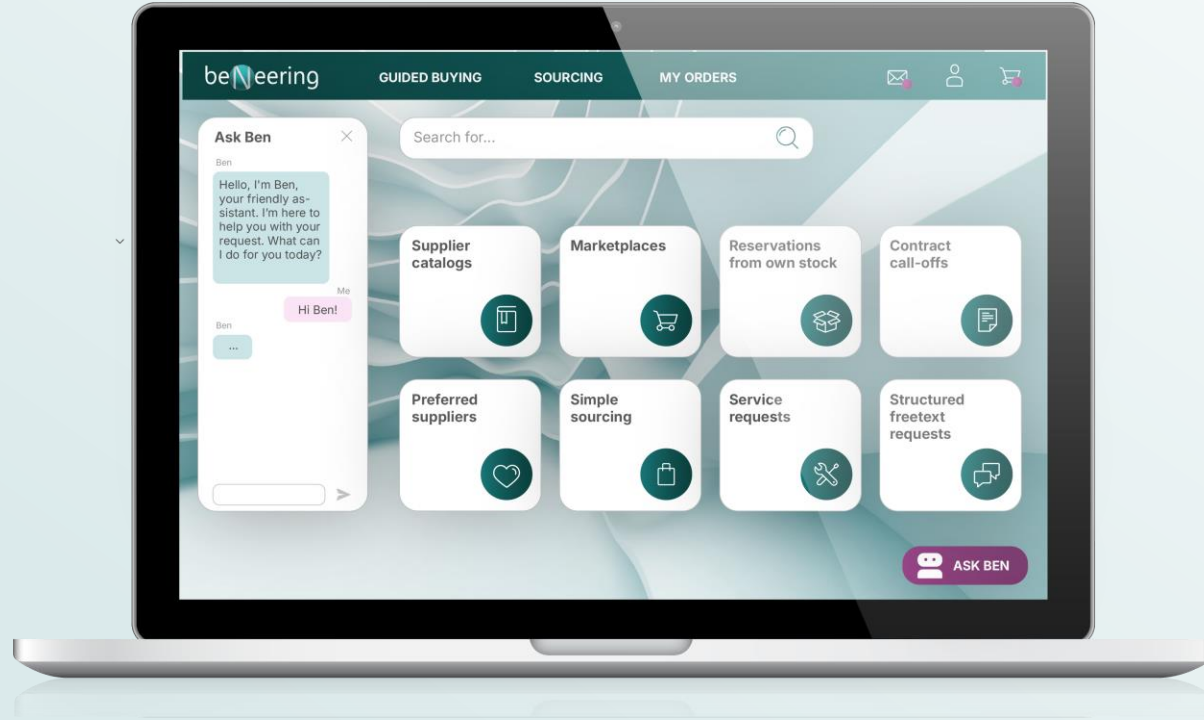

Direct Sourcing Process

- Awarded offer to contract data transfer – no room for mistakes
- Instant contract creation is SAP ERP
- Real-time data transfer from BeNeering to SAP ERP

DEMO
